Muzrai Secretary's remarks:-

The two important questions to be disposed of in this case are:-

i) the execution of the needful repairs,

ii) the fixing of a scale of expenditure for the temple.

On the first point I beg to say that I inspected this temple and found it in urgent need of repairs. All the surrounding stone Mantaps (Chandrasala) have been pulled down by order of the Deputy Commissioner

as they were in a
condition. The temple of the
Goddess although left standing,
has to be rebuilt, the image
of the Goddess being removed
temporarily into the God's temple.
At present an estimate prepared
in P. W. D. has been received
for Rs 1914 for rebuilding the
temple of the Goddess. This
is a very necessary work
and has to be sanctioned.
For providing the money for
the work I have to respectfully
~~to~~ request that the annual
Savings which accrued to
Government from the Kakkehalli
village from the year 1885
up to the year 1903-04, in
which latter year the Govern-
-ment sanctioned an annual
grant of Rs 120 in lieu of the

E

income from the village, may be kindly refunded to the Institution. These savings amount to Rs 2255-4-6 and the necessity for the grant of this amount by Govern-ment to the temple has been already humbly recommended by me in page 11 of my Office Note dated 22nd May 1903 relating to the Kakkehalli village. Without this amount, the very necessary work of restoring the temple of the Goddess cannot be executed. The restoration of the surround-ing Mantaps or Chaudrasala which will cost a great deal has to be put off for the present.

The expenditure necessary

for removing the idol of the Goddess from its present place and restoring it after the temple is re built may be met from the savings of about Rs 700/- said to be at the credit of the temple.

As to the revision of the scale of expenditure of the temple, a statement is submitted shewing the income from all sources and the expenditure, present and proposed. In the proposals submitted by the Amildar and recommended by the Deputy Commissioner, it is sought to re-arrange with very slight modifications the expenditure, which is now being incurred under various

heads, with the result that an annual saving of (100) rupees will be made in favor of the temple. The proposals appear suitable and may be sanctioned.

It may be added that the temple in question is situated in an important place of pilgrimage, viz, Ramanathpur and that the temple itself is one of great antiquity.

The papers in this case have to be submitted to H. H. the Maharaja in reply to the query dated 4th June 1903, regarding the repairs to be effected to the temple. The final report from the Deputy Commissioner was

Note continued.

The gracious orders of His Highness sanctioning the Estimate for Rs 1914/- for repairing the temple of the Goddess attached to the Sri Agasteswaraswami temple at Ramanathapur, were conveyed in Govt. Pro. No. 1511-14, dated 19th September 1905.

Exs. A

In the estimate, however, no provision had been made for the expenditure necessary for removing the idol of the Goddess from its present place and restoring it after the temple was rebuilt, and the Deputy Commissioner was requested to meet such expenditure from the savings of about Rs 700/- then reported to be available at the credit of the temple and report the actual cost to Govt.

The Deputy Commissioner now reports that the Goddess was removed from its

present place after the prescribed ceremonies were gone through for which purpose Rs 30 of were sanctioned out of the savings, but that as that amount was found inadequate, the Amildar incurred an additional expenditure of Rs 25-5-3, The Deputy Commissioner solicits sanction for Rs 55-5-3, being the total expenditure incurred for the purpose.

The Deputy Commissioner further reports that when the idol was removed which was done in the presence of the Amildar, the temple Dharmadarsis and the people of the village, articles noted in the margin were found underneath the idol and have been preserved in the Taluk Treasury. No treasure however is stated to have been found immediately below the floor slabs, as it was undesirable to go deeper owing to the unsatisfactory state of the temple building, but that the Executive Engineer is stated
